

CRIMINOLOGY

Students majoring in Criminology study the causes of crime and victimization, the behavior of criminals, and the criminal justice system. Criminology strives to understand the nature of crime, as well as the theoretical underpinnings that guide how people are controlled, punished, and rehabilitated. Students have the opportunity to tailor their degree aspirations by choosing between three concentrations (Fraud & Financial Crimes, Justice Studies or Victimology), and through the selection of minors including: victim studies, psychology, sociology, and forensic science.
