

# PSYCHOLOGY

The Psychology program (see reverse side for featured courses) provides excellent preparation for careers in mental health, child development, psychological research, human resources, education, and more. This major is also a strong choice if you plan to pursue graduate school in psychology or related fields, such as law, social work, or physical therapy. Our program develops strong skills in statistics and research. In fact, our seniors have won numerous regional and national awards from Psi Chi (International Honor Society in Psychology) for presenting exceptional research at professional conferences, which has given them a competitive advantage in obtaining jobs and admission to graduate school.

## BEYOND THE CLASSROOM

### HANDS-ON EXPERIENCE

Students gain valuable experience with the Mount's extensive cooperative education and internship programs. Psychology co-op placements have included community mental health agencies, clinical research departments in local hospitals, and organizations for children with developmental disabilities. Many students receive job offers as a result of these experiences. Our students also have the opportunity to collaborate on research with our award-winning faculty.

### PSYCHOLOGY TRACKS

In addition to our general psychology major, you can choose one of our advising tracks to specialize in one of the following areas of psychology: business, clinical/counseling, criminal/forensic, health, school, or sport psychology. Or tailor your psychology major to prepare you for further study in other health professions (e.g., physical or occupational therapy).
