

ACBSP Assessment Results for Public Information

As of February 1, 2021

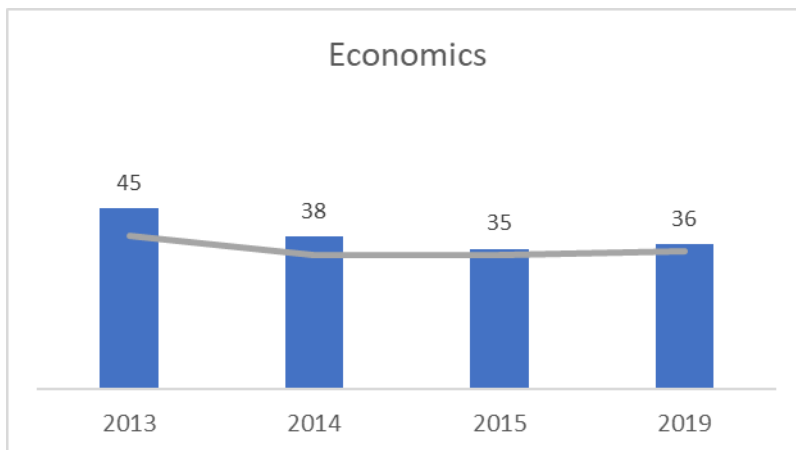

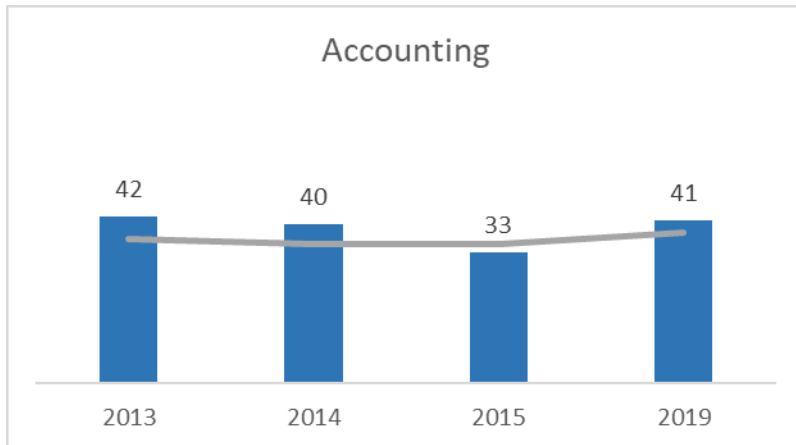

ACBSP Assessment Results for Public Information

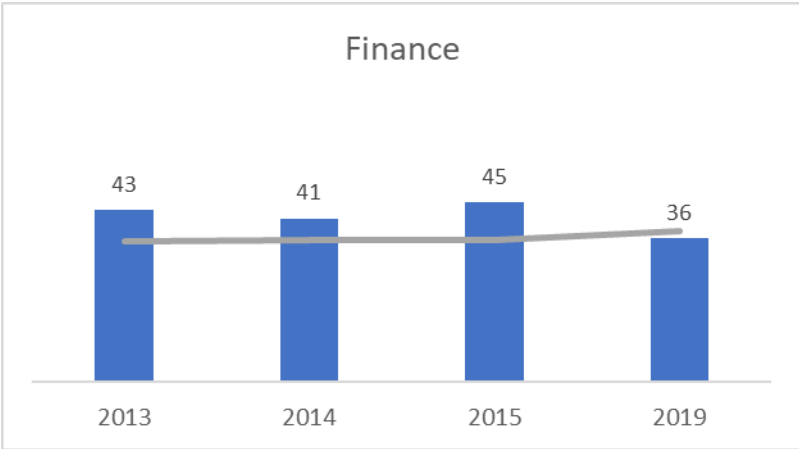

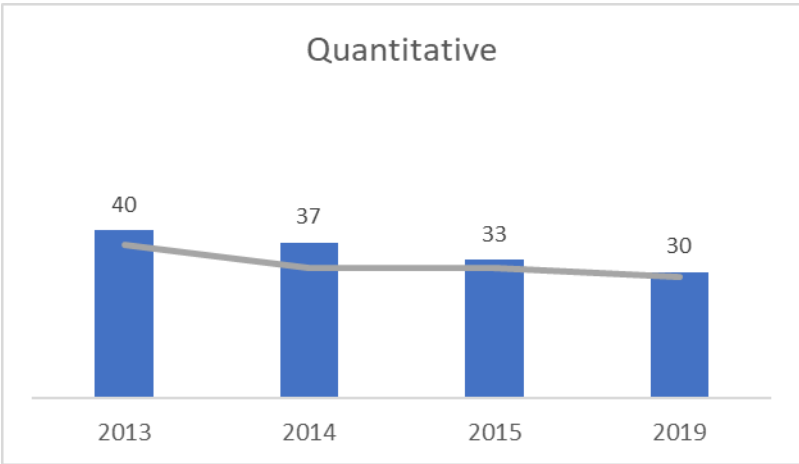

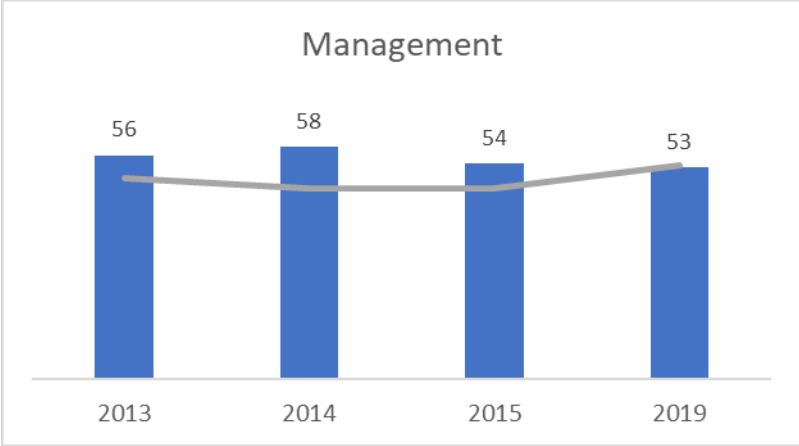

These Assessment results demonstrate the performance of Mount St. Joseph University business students vs. a benchmark based on the national average for business students. These results are one way that Mount St. Joseph University demonstrates the performance of our business students. In other documents, additional data are provided about retention rates and career outcomes.

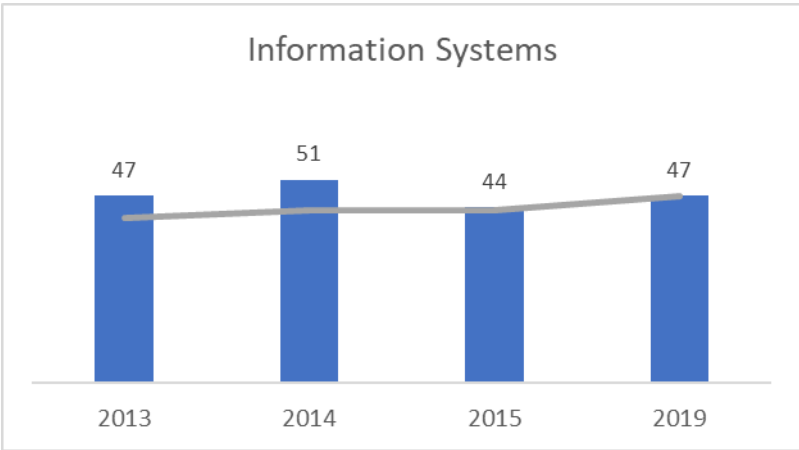

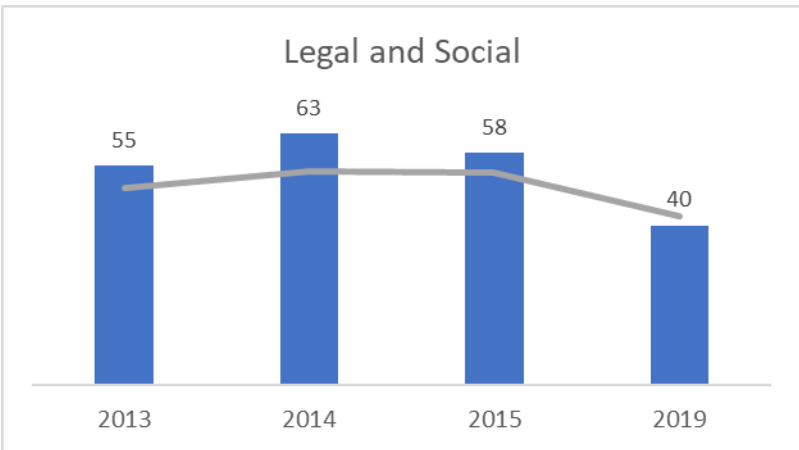

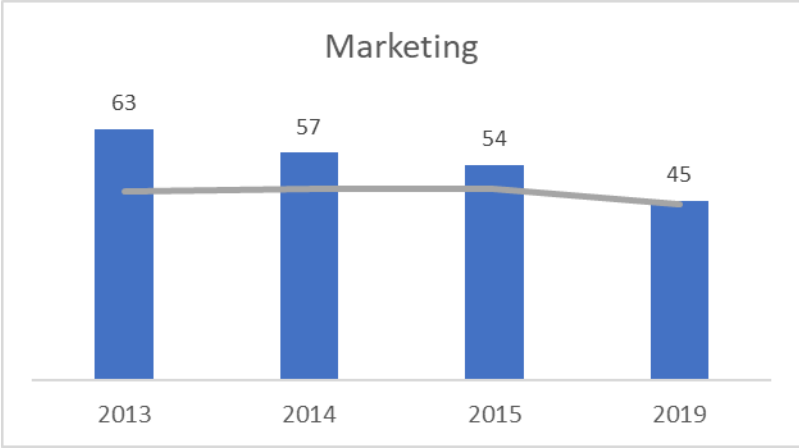

Undergraduate Longitudinal Results

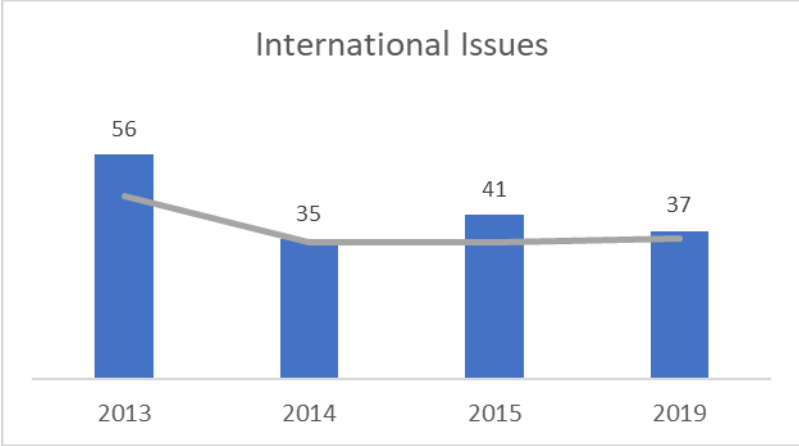

These results are based on the ETS Major Field Test in Business. The test is taken by Mount St. Joseph University business students who are usually in their final semester. The performance of Mount St. Joseph University students is shown in the column. The line shows the benchmark, which is within one standard deviation of the national average.

The undergraduate ETS Major Field Test in Business was not administered in 2020 due to COVID and the lack of a workable online proctoring solution.

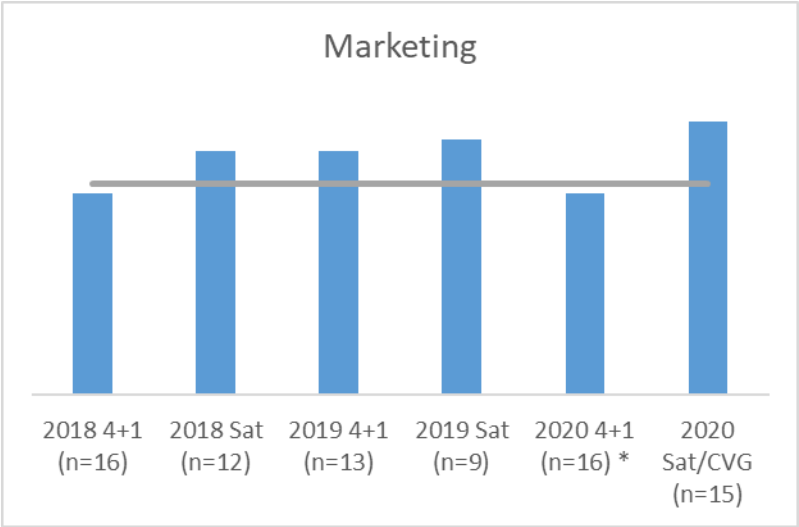

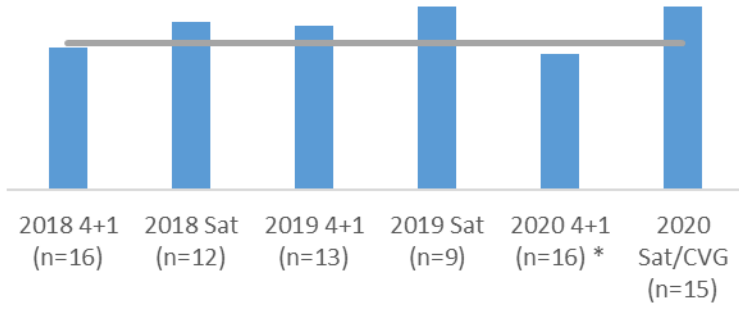

Graduate Longitudinal Results

These results are based on the ETS Major Field Test for the MBA. The test is taken by Mount St. Joseph University MBA students in their final semester. The performance of Mount St. Joseph University students is shown in the column. The line shows the benchmark, which is within one standard deviation of the national average.

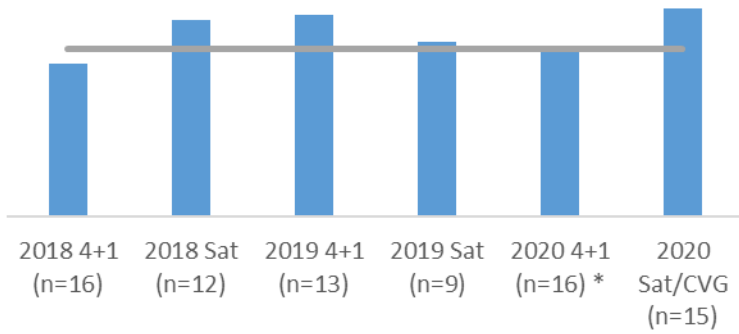

The 4+1 MBA students who took the ETS Major Field Test for the MBA in April 2020 encountered significant issues with the online proctoring of the exam. These issues resulted in many students having substantially less than the allowed time to complete the exam and resulted in lower scores.
